

# Diethyl Carbonate (DEC)

## CARBONATE SOLVENT

### PRODUCT OVERVIEW

High-purity linear carbonate solvent supplied for electrolyte formulation, chemical synthesis, and electrochemical research.

#### PRODUCT INFORMATION

CAS No. 105-58-8

### TECHNICAL SPECIFICATIONS

| PROPERTY                                   | SUPPLIER SPECIFICATION                              | REPRESENTATIVE COA RESULT                              | UNIT  |
|--------------------------------------------|-----------------------------------------------------|--------------------------------------------------------|-------|
| Appearance                                 | Colorless transparent liquid; no visible impurities | Conforms                                               | —     |
| Assay                                      | ≥99.99                                              | 99.995                                                 | wt%   |
| Water                                      | ≤30                                                 | 8.7                                                    | ppm   |
| Hazen color                                | ≤10                                                 | 2.0                                                    | Hazen |
| Total alcohols, as methanol + ethanol      | ≤50                                                 | 30.0                                                   | ppm   |
| Chloride / sulfate                         | ≤1 / ≤5                                             | <1.0 / <5.0                                            | ppm   |
| Na / Ca / K / Pb / Fe / Cu / Zn            | ≤1 each                                             | 0.51 / 0.51 / 0.39 / 0.91 / 0.86 / 0.10 / 0.90         | ppm   |
| Mg / Cr / Ni / Mn / Ba / Cd / Al / As / Hg | ≤1 each                                             | 0.02 / ND / 0.88 / 0.01 / ND / 0.03 / 0.97 / 0.13 / ND | ppm   |

#### REPRESENTATIVE COA HIGHLIGHTS

99.995 wt% assay | 8.7 ppm water

### RESEARCH APPLICATIONS

Electrolyte and formulation development; chemical synthesis; analytical-method development; and electrochemical materials research. Suitability should be confirmed in the intended system.

### QUALITY / DOCUMENTATION

Specification limits and representative COA results are derived from supplier quality documentation. Lot-specific Certificate of Analysis available upon request.
